

## AB1200 Junction Bana™

The Junction Bana is a great transition Bana when configuring larger systems on the water. There are 2 sides with connection points that allow additional room when building out a system. It can be used by itself as well.

- BanaGrip™ non-slip surface
- Drop stitch construction to maintain item shape and provide stability
- Hot air welded construction vs glued for best in class durability
- (2) Velcro flaps to connect Banas for unlimited modularity and customization
